Companion audit key: 57 selected GCC institutions

Scope. These are the 57 institution names, final nominal states, and retained clickable URLs transcribed directly from the six-page ICAMAC2026 submission copy. No policy or website is independently reverified by this extraction. E = explicit institution-level rule under the recorded gate, P = partial/narrow, U = a qualifying public rule not located under the original search protocol. A URL may be a specific instrument or merely an official context/search page (especially U cases); do not mistake the link for independent confirmation.

Locked counts: 20 E / 12 P / 25 U. This pre-outcome oldest-four-with-ties panel is not a random sample and cannot estimate country-wide policy prevalence. Full unabridged URLs are provided in the adjacent CSV file.

United Arab Emirates — 13 institutions

#	Institution (submission label)	E/P/U	Retained official locator
1	UAEU	E	Open linked locator
2	U. Sharjah	E	Open linked locator
3	Zayed	E	Open linked locator
